1. Purpose

XYZ – Technology Services (hereafter referred to as "XYZ-TS") wishes to obtain ISO/IEC 27001:2022 certification to reap the full benefits of implementing ISO/IEC 27001. Raised security standards, addressing business and IT risks due to growing business dependence on IT, and customer confidence are among the many benefits resulting from an ISO/IEC 27001 implementation.

This document sets out the scope and boundaries of the Information Security Management System (ISMS) for implementing ISO/IEC 27001:2022.

2. Scope Statement and Locations

The scope and boundary of the Information Security Management System (ISMS) shall be covered to secure information and IT infrastructure of internal (and/or external) customers and it is limited to **"Management of information security pertaining to IT infrastructure and Operations provided by** XYZ-TS **and business solutions provided by Digital Excellence in accordance with the latest version of the Statement of Applicability"**.

IT Functions:

- Governance Team
- SOC Team
- Systems Team
- TechSecOps
- Cloud Team
- Central IT Sourcing Team
- PMO
- Site IT Support function
- Application Support
- DE Operations
